

Hope you are doing well in our Lord Jesus Christ.

Because of your sincere support and prayer, my family and students in seminary are all doing well.

I'm really grateful for your support which help me to minister the seminary. It already has been 16months since I started the seminary and without God's grace and your support, I would not be able to minister the seminary by this far. Our students also feel the same way. They are grateful for your prayers and support.

For now we have 10-15 students in average attending the seminary and our classes are scheduled as follow:

Monday: Genesis

Tuesday: Mathew

Wednesday: Revelation

Thursday: Acts

Friday: Others (doctrine of Church and Minstry, etc.)

The classes are two and a half hours long and held in the evening. We also have chapel on Sundays.

On Saturdays, we visit small towns outside of Bogota and spread Gospel to the Deaf. We usually take bus or motorcycle. We are asked to visit as many as towns and villages but we have limitation of transportation.

Bus cannot reach smaller villages and runs only few times a day. Motorcycle is dangerous. Please pray for me and my team's safety for the trips. Also pleas pray for transportation.

Colombia is five times larger than Korea (North and South combined) and there are so many Deaf people without churches and pastors in their towns. Since they have limited access to education many of them cannot read and write. They never had chance to hear about God. Please pray for them to hear God's words. I really hope to teach as many as students so that they can spread over the country to preach the Gospel.

I often try to send my students to outside of Bogota to practice in real life. Your donation is used for these trips and also for those who is in need, to support the students' transportation and meals.

1. Pray for students that they learn diligently and fully understand the studies.
2. Pray for students that they may become humble and God-fearing ministers.
3. Pray for safety and transportation to the countryside for mission trips.

4. Pray for my health so that I can continue to teach and preach in Colombia.

Thank you again for your support and I wish you Merry Christmas and a Happy New Year.

In His Grace,

Jung Kim
