

Dear Family and Friends,

August, 2018

Shalom!!!

As I am hearing many different news about the heat wave, I am lifting you up for God's protection. We also have unusual weather and have sudden heat wave and I am having a hard time over 2 weeks with redness and swollen all over my face and neck due to heat rash.

After our DTS students went on outreach, we were busy with preparing and serving New Korea servant retreat. Missionaries who are working in North Korea came and shared, and we were able to learn about the situation in North Korea and how we could bring the Gospel to people in North Korea.

Through this retreat, we learned more about the Lord's heart toward North Korea, and had prayer times that Lord, who loves North Korea, to heal the land, to comfort the people of the land and to open the doors so that they can hear the God's Love, the good news.

During the DTS 12 weeks of lecture phase, the Lord, who ministered in new and amazing way of healing and restoration in each of the student's life, especially God's loving touch brought amazing restoration to a family. Many thanks to the Lord. This family is a family with two sons and a daughter, and have been ministering in China for nearly 20 years. After being deported from the Chinese government in January, they came to our DTS which began in March.

We were so thankful to the Lord for healing this family, first of all restoration of loving relationship with God, and then the marital relationship and parents and children relationship during the 12 weeks of lecture period. As a result of busy ministry, marital relationship and parent-child relationships were neglected, and attention and love for each other have been weakened, yet through the training, in the Lord's loving hand and healing, they can now stand once again as minister of God's Kingdom. I received this training a long time ago, but I feel the necessity of this training once again by serving the DTS training ministry.

Our DTS outreach teams came back after 8 weeks of evangelism in Turkey and Greece. We had time of debriefing and time of listen to the Lord's work through the teams. The outreach teams came back after they have shared the love of God through prayer walk, serving the refugees in the Syrian refugee camps in Turkey, and street evangelism and distributing the Modern Greek New Testament in Greece. They walked through many areas for more than 10 hours a day to distribute the Bible and rejected when they distributed the Bible and yet, they didn't want to miss even one family so they walked to the mountains and to the valleys with joyful heart.

All of the students shared that they have had experience the Lord even deeper way while practicing what they have learned during the lecture course through preaching the gospel and serving the local people with the love of the Lord.

We will have 144 hours of continuous worship and prayer time from August 5th for 6 days. This time we will pray for the United States and Korean Peninsula.

English DTS training will begin in September 27th. We are praying for the 144 hours of continuous worship and prayer time that God will move with His mighty power and many young people will join the English DTS and will be trained as disciples of Jesus.

Thank you so much for all your prayer support! Please continue to pray for me so that I can do well what God has entrusted me to do.

<Please Pray....!>

~ For God's anointing and presence over 144 hours continuous worship and prayer

~ For many young people to come and be trained in September English DTS

~ For me to sensitive to the leading of the Holy Spirit.

~ For spiritual, physical strength

~ For me to know the will of God for the next step.

~ For all the financial needs to be met

In His Love,

Choun Ok Lim
