

Greetings in the name of our Lord Jesus Christ!

Thank you so much for your prayer and support for my study and ministry in the past year! Right now I am doing my fourth-semester seminary study at Dallas Theological Seminary. It's been hard for me to study theology in English. But praise the Lord, God has been always my help and provider. So far, my study and life here in the United States have been going well. Attached are the grade reports of my first three semesters at DTS. Apart from the seminary study, I have also been doing ministry at Grace Chinese Baptist Church in Plano of Dallas. I have been teaching Sunday School for adults there since last September and preaching once a month since this September. During the Spring and Fall semester break time, the missionary Chung and I had mission trips to the east and west coast of US. We visited several Korean and American churches and gave testimonies and mission reports to the congregations. In this summer vacation, the missionary and I went back to our mission field in China and did some intensive ministry there. This time in China, we did experience and see the critical situation for Chinese house churches. Many churches have been forced to close and crosses have been pulled down. Bible study has become illegal. It's getting harder and more dangerous to do ministry in China now. So my first prayer request is to pray for the Chinese ministry and house churches. May God strengthen and empower Chinese churches and believers so that they can go through this severe persecution without compromise and gain a great spiritual revival and eventually glorify God's name! Second, please continually pray for my study here at DTS. May God help me move forward to be ready for the vision He has given me!

Thanks again for your prayer and support! May God bless the ministry of JSBNF and all your hard work! All glory be to God our Father in heaven!

Blessings,
Paul
