

## Prayer Letter of May & June, 2020

Dear Prayer Partners,

It's been three months since we left Thailand and came to the United States. We are living through two crises in USA one from COVID-19 and the other from the racism that cause many to go out on the street in protest. More than anything, we need to pray for the nation. A few days ago, we read a passage in Habakkuk 2:1 during our QT that said, **“I will stand at my watch and station myself on the ramparts; I will look to see what he will say to me, and what answer I am to give to this complaint.”** We need to stand on the rampart- the words of God that we hear from the Lord the answer of the current situations. And in 2:4, **“The righteous will live by his faith.”** We live in uncertainty, but we live by His faith. May the Lord grant the mercy and forgive our sins.

---

Praise God for many churches and Christians who share the love of God in this difficult time. The churches in Los Angeles and Bangkok as well as OM Thailand distributed many donations to neighbors and the needy. As the events of racism erupted, the church is praying diligently. Some of PMH (Providence Mission Home) families voluntarily had a peaceful march and prayer walk around our neighborhood. May the Lord heal us through our prayers for America and the world.

---

The good news in our family is that Nathan and his wife, Diane, graduated from University of California San Francisco Medical School on May 18th. After four years of studying, the couple officially became doctors. We are grateful that the couple is able to start their internship/resident years together in the same city with their first-choice programs. They will begin in mid-June in San Francisco with Nathan in Family Medicine and Diane in Internal Medicine. The graduation was virtual via online viewing. Nathan was chosen to give the graduation speech on behalf of his class. He picked “love” as the theme of his speech since he is unable to use any religious connotations. Irene is currently treating many patients every day at her clinic- Los Angeles Christian Health Center-which serves many poor and individuals experiencing homelessness. Please pray for the passion, health, and safety of our children who care for poor and sick souls and COVID patients.

Woody is taking a few courses on financial development as he prepares to step into his role in financial development covering the Asia area (20 countries). The lectures by OM are held online from 5am to 9am in the morning, but the seminars held by the Lausanne Ministry Fundraising Network are held from June 3rd to July 15th at 3am (PST) every Wednesday. Please for more focus and wisdom for Woody during these early hourlectures. Woody is passionate in his calling, and although he is not an expert, he hopes that he can grasp a firm foundation of mission fundraising so he can help raise funds to finance OM ministry projects in Asia.

The pandemic changes few things in our lives. Esther cut hair by herself, and Irene cut Woody's hair. Esther cut Irene's hair. It all came out great. Woody took a challenge in cooking Italian food. Esther grabbed a wood carving skill that added few spoons in the kitchen. We hope that you are all doing well and see you soon. Blessings,

**Woody, Esther, Irene, Nathan, Diane Kim**
